Professional Summary

Results-driven Business Analyst with expertise in business intelligence, data analytics, financial analysis, and performance reporting across engineering, manufacturing, and business operations. Currently supporting one of Europe's largest green steel megaprojects as part of the **Project Management Consultant (PMC)** team, delivering data-driven insights, KPI dashboards, and business intelligence solutions that support project governance and strategic decision-making.

Experienced in translating complex business and project data into actionable insights through Power BI, Advanced Excel, Power Query, and DAX. Proven ability to collaborate with multidisciplinary stakeholders across the PMC, client, and EPC contractors to gather business requirements, improve reporting processes, strengthen data quality, and optimise business performance. Skilled in business process improvement, data validation, performance analysis, and executive reporting within complex project environments.

Core Competencies

Business Analysis | Data Analysis & Business Intelligence | Stakeholder Management | Requirements Gathering | KPI Development & Performance Reporting | Dashboard Development (Power BI, Excel, Power Query & DAX) | Business Process Improvement | Financial Analysis & Reporting | Trend & Variance Analysis | Project Reporting & Reporting Governance | Data Validation & Quality Assurance | Cross-functional Collaboration | ERP Systems (SAP, Microsoft Dynamics & QuickBooks) | Lean Six Sigma | Documentation & Process Governance | Root Cause Analysis & Problem Solving

Professional Experience

Business Analyst | Report Leader | Business Intelligence

IDOM Consulting, Engineering & Architecture (Project Management Consultant – PMC) | SSAB Green Steel Project (EUR 4.5 Billion), Sweden / Feb 2026 – Present

Supporting one of Europe's largest green steel megaprojects as part of the **Project Management Consultant (PMC)** team by delivering business intelligence, performance analytics, and executive reporting. Collaborate with the client (SSAB) and multiple EPC contractors to provide reliable project insights that support governance, project controls, and strategic decision-making.

Key Responsibilities & Achievements

- Led the end-to-end reporting lifecycle by collecting, validating, consolidating, and analysing multidisciplinary project data to deliver accurate performance insights.
- Developed automated KPI dashboards and management reports using **Power BI, Excel, Power Query, DAX, and VBA**, improving reporting efficiency, data quality, and decision support.
- Integrated and validated project data from multiple organisations, including the **PMC, client (SSAB), and EPC contractors**, ensuring consistent, accurate, and reliable reporting for executive decision-making.
- Extracted and transformed engineering and project information from **Aconex** and other project systems into interactive dashboards, business intelligence reports, and performance analytics.
- Performed trend, variance, cost, and progress analysis to identify project risks, monitor performance, and support proactive decision-making.
- Partnered with multidisciplinary stakeholders to elicit reporting requirements, standardise reporting processes, and improve data consistency in line with project governance and client reporting standards.
- Strengthened reporting governance by implementing data validation procedures, workflow standardisation, document traceability, and continuous process improvements.
- Produced executive dashboards, presentations, and performance reports to monitor KPIs, milestones, risks, and project deliverables for senior leadership.

Business Analyst

PizzaBakeren Hudiksvall, Sweden | May 2025 – Feb 2026

Provided business analysis and data-driven insights to support strategic decision-making across operations, finance, and commercial performance. Analysed business processes, financial performance, and operational KPIs to improve profitability, forecasting accuracy, and reporting efficiency.

Key Responsibilities & Achievements

- Analysed sales performance, operational KPIs, customer trends, and financial data to support business planning and strategic decision-making.
- Developed interactive dashboards and management reports using Power BI, Power Query, DAX, and Advanced Excel, transforming data from POS, accounting, and tax systems into actionable business insights.
- Performed financial analysis, budgeting, forecasting, variance analysis, and profitability assessments to identify trends and cost optimisation opportunities.
- Collaborated with franchise management, suppliers, accountants, and external stakeholders to gather business requirements, resolve operational issues, and improve reporting quality.
- Managed VAT reporting, employer declarations, tax reconciliations, and financial compliance while ensuring reporting accuracy and adherence to Swedish regulations.
- Automated reporting processes, standardised data validation, and recommended business process improvements that enhanced reporting efficiency, operational performance, and decision support.

Team Leader/ De facto Team Manager

Northvolt, Sweden | Dec 2023 – April 2025

- Led operational and financial oversight of a high-tech manufacturing unit (40+ personnel), ensuring compliance with ISO 9001, ISO 14001, and Swedish HSE, while driving cost discipline and process efficiency.
- Supported production planning, workforce cost control, and capacity utilization, aligning output with budget targets and financial forecasts.
- Monitored and analyzed labor cost, overtime, scrap, rework, and productivity KPIs; performed variance analysis and led corrective actions to improve cost efficiency.
- Developed and maintained SOPs, work instructions, and control documentation, strengthening internal controls and audit readiness in line with quality and environmental standards.
- Conducted risk assessments, internal audits, and RCAs using Lean, Six Sigma, and 5S to reduce non-conformities, waste, and financial leakage.
- Led and participated in QRQC sessions, translating deviations into financial impact and preventive control actions.
- Collaborated cross-functionally with Finance, Quality, Engineering, and Maintenance to ensure reliable processes, accurate reporting, and sustainable operational performance.
- Supported inventory control, material usage reviews, and variance analysis, improving working capital management and reducing write-offs.
- Championed financial accountability, compliance, and continuous improvement through daily leadership, training, and performance reviews; used Train-the-Trainer certification to coach teams on audits, internal controls, corrective actions, and compliance best practices.

Team Leader

Randstad, Sweden | Sep 2023 – Dec 2023

- Optimized production line efficiency by managing team performance, implementing dynamic rotations, and fostering collaboration.
- Developed and executed resource allocation plans to meet and exceed daily production targets.
- Ensured workplace safety and compliance through risk assessments, 5S methodology, and proactive quality monitoring.
- Completed Train-the-Trainer training, enhancing my ability to mentor and develop teams effectively.

Operator / Manufacturing Associate

Randstad, Sweden | Jun 2023 – Sep 2023

- Operated and monitored machinery to ensure smooth production flow and efficiency.
- Followed Standard Operating Procedures (SOPs) to maintain high-quality and safety standards.
- Assisted in troubleshooting equipment issues and optimizing production processes.
- Maintained a clean and organized workspace following 5S and workplace safety protocols.

Manager Finance

NUR Enterprises | 2020 – 2021

- Managed budgeting, financial reporting, and forecasting.

- Oversaw prepayments, accruals, and accounts receivable aging reports.
- Prepared and analyzed financial statements for decision-making

Fatima Memorial System | 2011 – 2020

Manager Internal Audit | 2015 – 2020

- Conducted internal audits, risk assessments, and compliance reviews.
- Redesigned internal processes to align with best practices and improve efficiency.
- Investigated cases of misappropriation and fraud.

Assistant Manager Internal Audit | 2013 – 2015

- Audited payroll, finance, procurement, and HR functions.
- Conducted stock counts and evaluated project expenses for non-profit organizations.

Accountant | 2011 – 2013

- Processed and scheduled payments for invoiced transactions, ensuring accuracy and timeliness.
- Calculated VAT and ensured compliance with tax regulations.
- Prepared financial forecasts and cash flow projections to support budgeting and planning.

Education

Master of Science in Business Administration - Strategy and Management in International Organizations

Linköping University, Sweden | 2021 – 2023

Master's Thesis (in collaboration with Electrolux AB):

Unveiling Consumer Perception: Exploring the Impact of Decoupling Product Ownership

Conducted market research and consumer behavior analysis to identify market opportunities and support strategic business recommendations.
